**CrickSoftware**

Clicker 8

Clicker is the complete writing solution for the primary classroom, providing every pupil with just the right level of support and challenge.

The animals were having a meeting. They were arguing about who was the best.

Reading

Clicker will read any on-screen text in a clear, human-sounding child's voice, which enables many pupils to access a broader range of texts than they would ordinarily be able to read.
Pupils can also record themselves to practise reading text accurately, expressively and to develop their fluency.

Speaking and listening

There are Clicker activities focused on repeating a spoken model, answering questions, retelling a story or process using picture prompts, and more open-ended resources for encouraging children to share their thoughts about a particular topic or concept.

The flexibility of Clicker means that you can use any content you like to create an activity, so whatever the subject or learning objective, whatever the ability level or age of your pupils, you can put together a suitable activity.

Plant Life Cycle

Writing

At the Zoo

Clicker helps children of all abilities to achieve writing success.
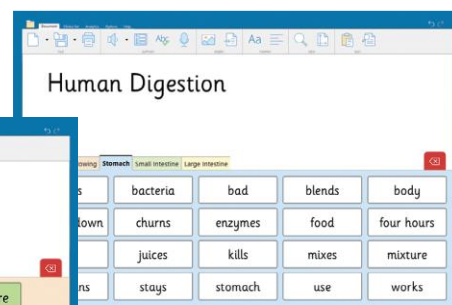

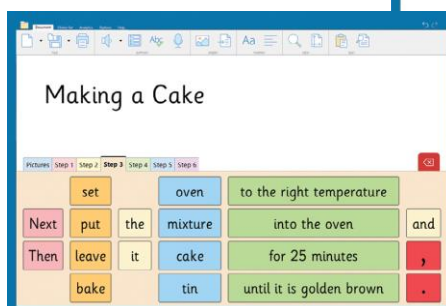

Help children prepare for writing with **Clicker Board**, an intuitive mind-mapping area. They can also use the **Voice Notes** to capture their ideas and rehearse their sentences.

Provide children with speech-supported sentence building grids to help them compose their very first pieces of text. The ability to add picture support, colour-coding and models makes writing tasks accessible for every learner.

Word Banks give pupils point-and-click access to specific topic vocabulary and can be used to encourage children to make more adventurous choices. You can even turn children's Clicker Boards into a Word Bank!

Combine this with **Writing Frames** to help pupils become familiar with the differing genres and forms of writing required.

Human Digestion

Making a Cake

"Our pupils have not only become better writers, but more confident ones."

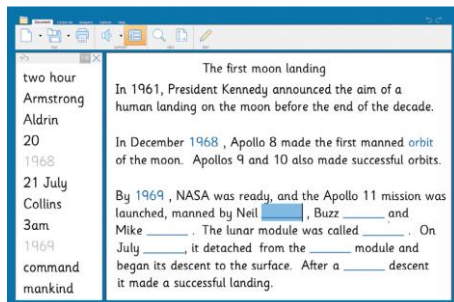

Picturize

Clicker's new 'Picturize' button instantly adds pictures to any Clicker Grid, helping children to find the word they want. Choose from over 4500 Clicker curriculum pictures or use your own.

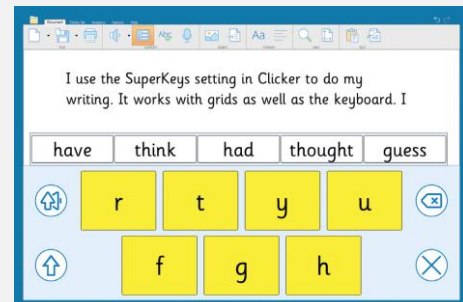

New children's voices

Realistic-sounding speech feedback has always been one of Clicker's most powerful literacy support tools. Clicker 8 has two additional children's voices to further increase our selection of regional accents.

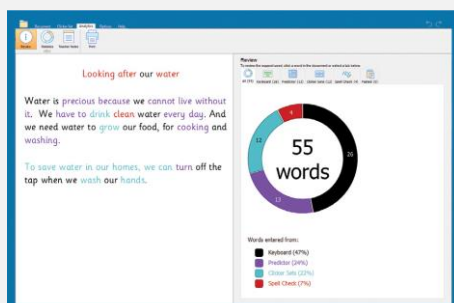

Clicker Cloze

Cloze activities are a great way to assess pupils' topic knowledge, as well as their ability to use semantic and contextual clues. Create your own Cloze activities in a matter of seconds!

Accessibility enhancements

We've created an even better experience for students with additional access needs, with enhancements to switch access and eye gaze settings, and our innovative accessible keyboard SuperKeys.

Clicker Analytics

Clicker 8's Analytics tool gives you a unique insight into each learner's writing process, helping you make informed decisions about their current support levels and the most effective next steps.

More free curriculum resources

Our bank of ready-made Clicker resources now includes hundreds of additional grids, books and activities, including our Find Out & Write About non-fiction series, Planet Wobble talking books for struggling readers, and New to English EAL resources.
