

Help struggling writers overcome barriers to progress with DocsPlus – Crick Software’s exciting writing tool for secondary schools.

- ✓ Help students organise their ideas and plan writing tasks with the built-in mind mapping tool and audio note creator.
- ✓ Offer subject-specific writing frames and word banks to support your learners as they tackle new writing genres and try to incorporate more relevant vocabulary into their work.
- ✓ Encourage students to actively review their own work with the DocsPlus speech feedback tool.
- ✓ Save time and money that would otherwise be spent on scribes and readers by using DocsPlus to support students who require additional access arrangements in exams.

Feature	Benefit
Analytics Rich data that gives you a unique insight into each learner's writing process. See how your students use the accommodations you've put in place for them.	By reviewing your students work with Analytics, you can identify possible patterns to enable you to target your teaching where it's needed most.
Voice Notes Students can record their own Voice Notes before they write.	Students can capture their initial thoughts and ideas, BEFORE writing.
Wordbar Wordbars give students instant access to the specific words and phrases they need for curriculum assignments.	Improves vocabulary and helps students to develop structure in their writing.
WorkSpace DocsPlus users have a built-in planning tool to help them prepare for writing.	By enabling a visual plan to be built before writing, quality and depth of writing is enhanced.
DocReader The integrated DocReader will read aloud any PDF or Word document.	Provides users equal access to worksheets and exam papers.
Word Prediction DocsPlus takes word prediction to the next level. Suggestions are incredibly context sensitive, as well as offering topic specific word prediction.	Increased depth and breadth of vocabulary use in written work.
DocsPlus in exams If students qualify for additional access arrangements in exams, they can use DocsPlus.	Enables students to participate more independently and saves time and money that would otherwise be spent on scribes and readers.
